

Fact file

A bit about the company:

We offer a dedicated delivery solution throughout mainland UK.

Where our offices are based:

We are based in Sheffield, just outside the city centre, but have a strong presence throughout South Yorkshire.

How many people do we employ:

We directly employ 15 people, but including sub-contractors this numbers around 50.

How long have we been in the City Region:

We have been based in Sheffield 22 years.

Hi, my name is Matt Ireland and I am the Compliance Manager at Apollo Distribution Solutions. We provide a wide range of distribution services across the UK.

Transport links are critical for us, being a distribution company. If transport links break down it greatly impacts every aspect of our business. Improved connectivity can

only improve the efficiency of how our company operates and help improve customer satisfaction.

Improved transport links between major cities will obviously bring new business to the area and help growth. Businesses will also be attracted to the area due to the fantastic transport links. It can't happen soon enough.

Clearly the greater benefit for Apollo will be in the added demand from the transport industry to make HS2 a reality. HS2 will be one of the largest infrastructure projects the country has seen and distribution companies will be a key part of the supply chain, both during the construction phase and once HS2 is up and running. This will be a serious boon to the industry as a whole.

I can only see benefits for our business and the region as a whole.
